ASBESTONOMY

Created in 2022, Asbestonomy's raison d'être is to reduce the risk of exposure to asbestos worldwide. As simple as it may seem, this ambition is far from being achieved.

Today, millions of people, at work or in their daily lives, are exposed to asbestos fibres, sometimes without knowing it.

Yet even in countries that have banned asbestos, this mineral fibre, invisible to the naked eye, continues to cause enormous damage.

With our respective histories and experiences, we know that these exposures are easily avoidable. Reducing the risk of exposure could save millions of lives in the years to come.

- △ **European directives**
- △ **Management of emerging countries**
- △ **Feedback**
- △ **Identification and management**

OUR AREAS OF INTEREST

THE EFFECTS OF ASBESTOS ON HUMAN HEALTH

A better understanding of the different mechanisms involved for better protection.

ASBESTOS IN THE WORKPLACE

Take stock of the different methods and tools available to reduce risk: from in-situ management to its removal and elimination.

ASBESTOS IN THE ENVIRONMENT

In both its natural and transformed states, getting to know your environment better is the key to controlling it.

RESEARCH AND DEVELOPMENT, INNOVATION

Study new methods, knowledge and innovations to combat this scourge.

Every year, this **international event** represents a high point dedicated to sharing, interacting and stimulating exchanges.

With conferences led by experts and convivial moments, this event travels regularly to be as close to you as possible.

After the successes of London in 2022 and Brussels in 2023, we're heading for Madrid in 2024.

THE ASBESTONOMY CLUB

The club aims to unite and facilitate exchanges on a regular basis throughout the year around various working groups.

By following Asbestonomy's mission to reduce the risks of exposure to asbestos worldwide, we aspire, as those in the know, to assume our social responsibility with regard to this issue.

Asbestonomers, members of the club, undertake to share Asbestonomy's values and raison d'être.

- ▲ The desire to share our knowledge,
- ▲ Work ethic and integrity,
- ▲ Commitment to the fight against asbestos exposure.

ASBESTONOMY 2024

The next Asbestonomy event will take place in Madrid on 19 & 20 June 2024.

Organised by Éditions Cédille, experts in events and publications specialising in occupational risks, particularly asbestos, this one-and-a-half-day event will include:

A **Welcome Party** to stimulate exchanges and increase your professional network.

A **full day of conferences** led by international experts to enhance your knowledge of the entire asbestos chain;

An **exhibition area** packed with innovations and solutions.

VISITOR, EXHIBITOR OR SPONSOR

Joining our event offers you :

- Access to asbestos expertise and knowledge
- Overall development of skills in asbestos-related fields
- Monitoring new products and innovations
- Opportunity to meet key players and expand your network (future customers, suppliers, investors, R&D partners)
- Rapid understanding of the international ecosystem
- Increase your international visibility and recognition
- Represent and actively participate in the asbestos industry
- Supporting positive initiatives in the asbestos industry
